

## New Web site aims to ease I-70 travel

ROBERT ALLEN  
VAIL, CO, COLORADO,

A new Web site offers one-stop access to several tools for folks traveling from the Vail Valley and Summit County through the Interstate 70 mountain corridor.

Data such as road conditions and speeds, driving directions, weather information and snow reports — ordinarily found on different websites — are combined on a map at [www.Gol70.com](http://www.Gol70.com).

The I-70 Mountain Corridor Coalition launched the website, now available through a beta-test version, to also connect people aiming to share rides, anecdotes and more. Photos, video and even lodging deals can be found through the site.

The site offers travel blogs advising holiday travelers from Summit County to postpone travel to Denver until 6 p.m. to avoid bumper-to-bumper traffic.
